

# Introducing the NextSeq 1000/2000

Join our LIVE event where we will discuss how the unique features and capabilities of the NextSeq™ 1000 and 2000 can open avenues to new applications and methods to further your research. Whether you are working with shotgun metagenomics, RNA Sequencing, single cell methods, spatial transcriptomics, or other applications, come learn how NextSeq™ 1000/2000 can benefit your lab.

## WHEN

December 6, 2022  
12:00 PM-1:00 PM HST

## WHERE

University of Hawaii Cancer Center  
Building B, Room 501, 5th floor conference  
room

## RSVP
